Contra Matriarchy

Julius Evola

The primeval mother goddess cult exists to this day in modern freemasonry and christianity and has embodied itself in the institutions of democratic secular society.

In this compilation of Evola's writings matriarchy is unveiled in its origins and analogs in character types and cultural phenomena as well as the very structure of modernity.

It is essential to understand what matriarchy is, through what channels it was given birth and what solutions still exist in the nadir of the Kali Yuga to rectify the problem.

During the 1930s and 1940s, Altheim served the Nazi state as a member of *Ahnenerbe*, a think tank controlled by the *Schutzstaffel* (SS), the paramilitary wing of the Nazi Party, and as a spy for the SS.

The Golden Cord: Esoteric Hitlerism

Miguel Serrano

“In 1978 Miguel Serrano published his first book on Esoteric Hitlerism which came to be his lifelong philosophy and passion which he never abandoned. In fact he spent most of his life learning the “hidden” or “Occult” (Occult literally translates as “hidden”) aspects of National Socialism. With his blend of Tantric-Kundalini Yoga, the mystery of the Runes, Ariosophy, the secret rites of the Troubadours and Minnesingers and their MYSTICAL LOVE, the Cathars, his Gnostic beliefs, his fascination with “The Mysteries” and being initiated into a Mystical “Order” in Chile (The Sacred Order of ThiU-Hin) Serrano found his lifelong “Master” Carlos Rogat Salas AKA Sri Raaknahaif (1878-1974) whom Serrano was loyal to all the way to the end. Serrano traveled and journeyed the entire world meeting prominent people who could answer his questions and quench his thirst for knowledge. These people were not just ordinary men and women. Serrano had access to a massive amount of knowledge and to the great men and women who kept it...”

Resurrection of the Hero

Miguel Serrano

published with permission

“Probably more than any other of his books, THE RESURRECTION OF THE HERO delves deep into the origins of ‘religion’ and its true meanings. Serrano takes us through it’s inner, esoteric, alchemical and astrological meanings. We come to see that all dying and resurrected Gods are zodiacal weapons for the Heroes to fight with. From the most ancient Mithraism to Zarathustra. To Kristianism and beyond, the Age of Aquarius, the Age of the Ultimate Avatar. We learn to transmutate the Hagal rune into the 8-pointed Venuris rune. The new futhark has been revealed. The Odal rune has been vindicated. The reader will enter the world of the Archetype, the Avatar, and perhaps, even find an exit, a window, a strategic departure from the Eternal Return.”

Maya: Reality is an Illusion

Miguel Serrano

Published by permission

"In Master Serrano's "late period", he decided to put the essentials of Esoteric Hitlerism into two little books. It would indeed be inevitable that he would return to Esoteric Hitlerism as the theme of his final books. Because "His Honour is called Loyalty" and also to give to the young Heroes a Voice. In an age like today we have no Voices speaking for the Eternal Divine Truth. There are only a few. In Maya, we are led down the cold streets of Austria with R. Mund, the leader of the ONT at that time, where Serrano would discover that Hitler had made the Atomic bomb and that the Allies would come to steal them and use them at the ends of WWII. We discover that the Third Reich had found the art of "Duplication," of the Doppleganger. An account of Hess is discussed along with reprinted letters from the Hollow Earth."
